

# Curriculum Vitae

## Short version, last 5 years

Pascal-André Vendittoli, M.D., MSc, FRCS

<b>Gender</b>	Male
<b>Date of birth</b>	1972-01-02
<b>Place of birth</b>	Montreal, Canada
<b>Nationality</b>	Canadian
<b>Languages spoken, read and written</b>	French and English
<b>Surgical Speciality</b>	Orthopedic Surgery
<b>Collège des Médecins du Québec</b>	1-01224-4
<b>Academic Affiliation</b>	Montreal University Surgical Department Full Professor, PTG, #93327
<b>Signature</b>	 February 19 2022

### Summary

I am a Professor of surgery and Clinical Researcher in orthopedic surgery at Maisonneuve-Rosemont Hospital / University of Montreal. Over the last 17 years, I also offered private services as a surgeon at the Duval Clinic. To continue the Duval clinic legacy, with my colleagues, I acquired the Duval clinic February 1<sup>st</sup> 2021. After my training in Orthopaedic Surgery, I undertook specialist training in hip and knee reconstruction for the young and active adult in Melbourne, Australia. Then, I worked with Paolo Aglietti in Florence, Italy to gain expertise in knee replacement surgery.

Aiming at offering my patients a normal quality of life and a forgotten joint replacement, I spent the last 18 years trying to find ways to improve my patients results. With my team, I developed a very effective enhanced recovery protocol allowing safer THA and TKA outpatient surgeries. In 2016, I did the first ERAS outpatient THA and TKA in Canada. In a clinical study, our protocol offered significant benefits for the patients and now I want to disseminate his experience with other teams through Enhanced Recovery Canada. I was involved in the design of different orthopedic implants and precision instruments. As a pioneer, I introduced multiple new implants and surgical technologies in the Canadian field. I am the founder and current president of the Personalized Arthroplasty Society: <https://www.personalizedarthroplasty.com/>

My principal research activities are the evaluation of new surgical techniques, new technologies and new orthopaedic implants, mainly in the framework of prospective and randomized trials. From 2006 to 2012, I was elected as Research Director of the Orthopaedics Division of Université de Montréal. In recent years, my work was presented more than 350 times at peer-reviewed congresses, and I was invited on more than 250 occasions as speaker. I published more than 150 scientific articles on hip and knee arthroplasty in peer-reviewed journals. As a Professor of Surgery at UdeM, I supervised 22 Doctors in sur specialized training in arthroplasty (fellowship), 15 master students, and 5 doctoral students (PhD). I am the Program Director of the postdoctoral program in hip and knee reconstruction at Montreal University.

In 2003, I received the Alexandra-Kirkley Award for the Best research by a young investigator by the Canadian Orthopaedics Association (CAO). In recognition of my research activities, since 2007, I was award the title of Clinical Researcher from the Fonds de la Recherche en santé du Québec (FRQS). In 2009, I won the "John Charnley Award" from the American Hip Society, the highest worldwide reconition in orthopedic surgery. In 2010, I received the Founders' medal for best basic science research work by the Canadian Orthopedic Association. In 2016, I received the "Edward Samson award", the most prestigious recognition from the Canadian Orthopedic Association. In 2019, I received the first prize "Excellence en soins" of the Fédération des médecins spécialistes du Québec. The greatest satisfaction is to be able to improve the care of patients suffering from joint degeneration.

### **Experience and employment**

2002-11 to date	Member, Department of Surgery, CIUSSS de l'Est-de-L'Île de Montréal Montreal, QC, Canada
2006-07 to date	Professor of Surgery, Department of Surgery Université de Montréal
2021-02 À ce jour	Medical Director, owner and surgeon Clinique orthopédique Duval, Laval, Qc

### **Training and Degrees**

1991/09 to 1998/06	<b>Doctor of Medicine (MD)</b> Université Laval, QC, Canada
1996/07 to 2001/06	<b>Higher Education in Orthopaedics Surgery</b> Université Laval, QC, Canada
1996/06	<b>Fellow of the Royal College of Surgeons (FRCS)</b> Orthopaedic surgery
2001/07 to 2005/10	<b>Master in Biomedical Sciences (MSc)</b> Master in clinical research Université de Montréal, Montreal, QC, Canada

### **Specialized post-doctoral training**

2001/07 to 2001/12	Fellowship: clinical and research in lower limb reconstruction in young patients Melbourne Orthopedic Group, Melbourne, Australia
2002/01 to 2002/07	Fellowship in lower limb prosthetic revision Austin and Repatriation Centre, Melbourne, Australia
2002/07 to 2002/10	Fellowship in knee surgery Institute of Traumatology and Orthopaedics, Florence, Italy
2002/10	Complementary training in minimal invasive knee surgery Milan, Italy

### **University positions: Montreal University**

Professor of Surgery, Department of Surgery  
Program Director, post doctoral program in hip and knee reconstruction  
Research Director of the Orthopaedics Division (2006 to 2010)

### **Supervision of students enrolled in higher studies.**

22 Doctors in sur specialized training in arthroplasty (fellowship)  
15 Master students (MSc)  
5 Doctoral students (PhD)  
29 researchers

### **Intellectual Properties and Royalties**

**Designer: Profemur Preserve » femoral stem for Wright Medical inc.**  
Sales launch : April 2013.  
**Designer : Preserve Classic » femoral stem for Microport inc.**  
Sales launch September 2015

### **Publications List** (last 5 years)

**H Index: 36, >5000 citations**

**Editor of the textbook :** Personalized hip and knee joint replacement, Rivière, Charles, Vendittoli, Pascal-André (Eds.), Springer, Heidelberg, 2020. ISBN 978-3-030-24242-8  
<https://link.springer.com/book/10.1007/978-3-030-24243-5>

## **Book Chapters**

(total = 15, last 5y presented)

- 1- P-A Vendittoli, Angela Styhler: Metal levels as biomarkers of hip implant wear, In Biomarkers of Hip Implant Function Ed. Swiatkowska, Elsevier, in press.
- 2- Charles C.J. Rivière, Philippe Cartier, Pascal André Vendittoli: Calipered Kinematic Alignment Technique for Unicompartmental Knee Arthroplasty In Kinematic Alignment total knee replacement, Ed. Howell. 2021
- 3- W. Blakeney, J. Matta, C. Fornaseri, P-A Vendittoli: Ligament balance in TKA In: Bhandari Evidence-base Orthopaedic, second edition, Wiley-Blackwell, 2021
- 4- W. Blakeney, P-A Vendittoli: Cross linked polyethylene in TKA. In: Bhandari Evidence-base Orthopaedic, second edition, Wiley-Blackwell, 2021

### **Prizes and Honors** (most important)

- 2019 **Star of the Health Care System**  
Caisse du Réseau de la Santé Desjardins
- 2019 **First prize : Outstanding health care program**  
Fédération des Médecins Spécialiste du Québec
- 2018 **Canadian Hematology Society (CHS) Paper of the Year Award**  
Anderson et al. Aspirin or Rivaroxaban for VTE Prophylaxis after Hip or Knee Arthroplasty. N Engl J Med. 2018 Feb 22;378(8):699-707.
- 2017 **Médaille de la Société Française de la chirurgie de la hanche et du genou**  
Société Française de la hanche et du genou (SFHG), Paris
- 2016 **J. Edouard Samson Award / Prix Édouard Samson**  
Canadian Orthopedic Association  
Recognizes the best career orthopaedic research over a period of five (5) years or more at a Canadian centre.
- 2010 **Founders ' Medal Award**  
Best fundamental research project  
Canadian Orthopedic Foundation
- 2009 **John Charnley Award from the American Hip Society**  
Annual Hip Society meeting, Las Vegas, USA
- 2003 **Alexandra Kirkley award: best young Investigator**  
Canadian Orthopedic Foundation

### **Innovative Practice**

- 2016 First Canadian implantation of the Tritanium total knee prosthesis, Stryker
- 2016 First Canadian ERAS-outpatient total hip arthroplasty
- 2016 First Canadian ERAS-outpatient total knee arthroplasty
- 2014 First Canadian implantation of the Sphere total knee implant, Medacta
- 2014 First World implantation of the Preserve classic femoral stem, Microport
- 2011 First Canadian implantation of the ADM Dual mobility hip prosthesis Stryker
- 2010 First North American implantation of the Profemur Preserve femoral stem, Wright Medical
- 2004 Development of the first computer navigation system for hip resurfacing surgery (Orthosoft).
- 2003 First North American implantation of the Durom Hip Resurfacing, Zimmer

### **Provincial bursary and salaried support as a clinical researcher**

- 2020-2024 **Chercheur chevronné of Fonds de la recherche en santé du Québec (FRQS)**  
Highest recognition
- 2017-2019 **Chercheur boursier of Fonds de la recherche en santé du Québec (FRQS)** Chercheur boursier clinicien Sénior
- 2011-2015 **Chercheur boursier of Fonds de la recherche en santé du Québec (FRQS)** Chercheur boursier clinicien Junior 2
- 2008-2011 **Chercheur boursier of Fonds de la recherche en santé du Québec (FRQS)**  
Chercheur boursier clinicien Junior 1
